

Proposition Learn and Extra-Curricular Activities

Voter approval of Proposition Learn would allow the District to restore funding for extra-curricular activities. FHSD would be able to eliminate the activity fees that were established this year at all grade levels to help pay for extra-curriculars. Our high schools would be able to provide a full schedule of freshman sports, and return transportation for all away activities. Middle and elementary schools would also be able to add back some extra-curricular activities that have been cut in recent years.

Studies have shown that students who participate in extra-curricular activities have higher academic achievement. These activities help teach students better time management and organizational skills, as well as provide a boost to their self-esteem. Research shows this type of attachment to school also decreases student dropout rates.
