

FREQUENTLY ASKED QUESTIONS

ON-LINE REGISTRATION SCHOOL YEAR 2022

Where do I go to log in?

Students entering grades 6-8 will register for courses using their Infinite Campus Portal Account. Note: You may log in using either a Campus Parent or a Campus Student portal account to register.

What is the login format?

The initial (first time) Student login format is:

Username = Student ID #

Initial Password = <first initial><last initial><6-digit date of birth>

Mary Smith ID # 123456 and Birthday of August 4, 2003 would use:

Username = 123456

Initial Password=ms080403

Only use this format if you have never logged in to the Student Infinite Campus Portal. If you have previously logged in to the Student Portal, use your existing password.

How do I reset my password if I forget it?

You can click on "Forgot your password?" and Infinite Campus will email a password reset link to you. Parents may also use the "Forgot your Username?" link to have their username emailed to them.

What if I don't have a Campus Portal Account?

All students have accounts created for them by the district, using the Initial student login format. Parents who have never used the Campus Portal will need to contact their child's school office to request an activation key.

Have Pre-AP or IEP courses been added by the school?

Core courses (Regular, Honors, Pre AP) were predetermined for students using district-established placement criteria. Those core classes may have already been entered by the school. If it is determined during an IEP meeting that the student needs to be enrolled in alternate courses, the counselor will make those changes.

What if I don't agree with the course my student has been recommended for?

Parent(s)/guardian(s) should contact the student's school counselor at the school they are currently attending. The school counselor will review the placement criteria and results that were used to make the course recommendation. If the parent/guardian would like the student to take a more rigorous course, they will fill out an appeal form and submit it to the school counselor, who will then make the change once the form is received.

If I select Virtual or In-Person for next year, am I able to change my selection?

Yes. Only families who would like their child to attend school virtually next school year regardless of the COVID situation should select the virtual option during the registration period. Families who would only choose virtual if COVID is still a concern this fall should select the in-person option. All families will have an opportunity to adjust those decisions closer to the start of the school year.

When does the Course Registration window for students entering grades 6-8 close?

Course Registration will close at 4:00 p.m. February 19, 2021.
